April Report on the Condition of Crops.

CONDITION OF WINTER WHEAT.

A Very Favorable Ontlook Over the Whole Area-The General Average the Highest Reported Since 1882-Various Other Disputches from the National

WASHINGTON, April 11.—The April returns to the department of agriculture make condition of wheat 96.9 and of rye 95.4. The season for see ling was favorable over the whole winter wheat area; the soil was generally easily compiled for the purpose of making a worked, the seed bed prepared with ununusual care, and sowing followed by gentle rains, sufficient to pro erly pack the earth and insure prompt and perfect germination. On portions of the Atlantic and gulf coasts the time of seeding was somewhat prolonged by oceasional rains, but the delay was not serious, and the desired area was planted and in good growth by the advent of

Snitable weather and soil condition enabled farmers of the Ohio valley states to put in a full breadth under entirely favorable circums a ce; and proper combinations of sunshine and moisture which continued until cold weather sent the plant into winter quarters with

the plant into winter quarters with seady grewth and a good color.

In portions of Ka sis and Nebraska the prolonged drouth of last summer exte ded into the period of scening, interfering somewhat and endering germination slow but reasonable weather during the late fall and early womer was sufficient to off of the disadvantage of a late start. The entire season was favorable in California, while in Oregon a dry seed hed received moisture in time to secure good though late ture in time to secure good though late

The weather was generally unid over the whole area, and while the snow fall was comparatively light it came when was comparatively light it came when most needed, protecting the plant during the coldest weather. The Ohio valley and the trans-Mississippi states were especially favored, growth in many sections continuing throughout the winter, with sufficient covering, when needed, and an entire absence of damage from freezing and heaving. Brown and bare spots are seldom met with, growth and color being remarkably uniform. The hessian fly which was feared in recember in the Central is yet in atevance, but the presence of the pe-t is noted in many locatities, and serious injury might follow should the early season prove favorable to ts development.

prove favorable to ts development.

The general average for condition is the highest reported for April since 1882, and the individual state averages are remarkable for their uniformity. It is si teen points higher than last year. and three above the returns for 1883. A high April condition does not insure a large yield, but it indicates a strength and vitality which would enable the plant to withstand more than the ordinary vicissitudes of the season. The nearest approach to present condition during recent years was in 1884, when the largest crop ever grown was harvested, but similar high condition in 1886 was followed by a crop of little more than average proportions. The averages of condition in the principastates are: New York, 92; Pennsylvania, 97; Tennessee, 98; Kentucky, 97; Ohio. 98; Michigan, 98; Indiana, 99; Illinois. 97; Missonri, 96: Kansas, 99; California, 99 and Oregon 97.

The returns make the percentages of losses among farm animals during the past year, of horses 1...7, cattle 3, sheep 4 and swine 8.4. Horses receive better care than any other class of stock, and annual losses ve y but little. The percentage of loss of cattle is slightly higher than was reported in 1888 and 1839 the scarcity of feed swelling the figures in portions of Kansas and Nebraska. The losses of sheep have been smaller than usual on account of better care and attention, while less disease than usual is reported among swine, though there is heavy loss in the regions of last year's crop failures.

Direct Tax for Southern States. WASHINGTON, April 11.—Secretary Foster has directed that all proper facilities be accorded the governors of the southern states to examine the treasury books for information as to who paid refunded to the proper individual, his heir or assignee. The following letter was vesterday sent to the governors of Virginia, North Carolina and West Virginin, and a similar letter will be forthe government agent from individuals. The latter reads:

"In the matter of the refund of the onblic tax to certain states provided for by the act of congress approved March 2, 1891, it is the wish of the treasury department to furnish to the duly authorized representative of the governor of each state access to the records of the department under circumstances medicine in this eity. which will occasion as little inconvenience as possible. Inasmuch as these original records cannot be removed from the custody of the government, and as the available space in the treasury buildings is limited, you are reque ted to name at least approximately the date when you will wish your repre-sentative to make their search of the records and the number of persons thus employed, for whom work room will need to be provided.

"In this connection the suggestion is made that the matter would be greatly facilitated if you would send an agent to Washington to look over the records, which will need to be examined, and form some estimate of the amount of work to be done. All facilities within the control of the department will be furnished for the purposed indicated."

Davidson, of Illinois, serving out a sentence of four years for violation of the postal law, to two years' attual in risonment.

Canadians Gulling Americans.

WASHINGTON, April 11.—Cauadians are engaged in the business of galling Americans in the matter of pure bred herses, if the collector at Port Huron, Mich., is correct in his surmises. He writes to the treasury department that he has spent a good deal of time in the invest gation of Canadian registries of purported thoroughbred animals and has always found them unreliable. They do not, he sa s. guarantee that purity of breed, that sin flar books in Enrope and this county do, and more than this, he says they a e 'evidently market among misnspecting Americans for inferior animals.

FOR COAST DEFENSE.

Proposuls for Forgings for Steel Goms, Mortars and Projectlies.

WASHINGTON, April 11.-The ordnance officers at the war department have been earnestly at work for weeks past preparing to give elect to some of the more important provisions of the fortification appropriation act, which will go into operation after June 30. To avoid loss of time most of the advertisements for proposais to supply material have been prepared, and will be issued in advance of the beginning of the new fiscal year. Those ready for issue are as follows:

For twe: ty-five sets of forgings for steel field guns of three and twotenth-inch calibre; for sixteen sets of forgings for steel field mortars of three and six-tenth-inch calibre and for sixteen steel carriages for the same; for steel torgings for large eight, ten and twelve inch rifled coast detense gins; for eight, ten and twelve-inch armor piercing projectiles; for excavations and iron work at the new south wing of the

Watervliet gun factory. For the large coast defense gnns above referred to, congress appropriated \$500,-000 for the procurement of the necessary forgings, and the material will be assembled at the Watervleit factory and ihe finished guns turned out. The 3.6inch mortars mark a new departure in military field operations. They are intended to replace the small Cohorns which are used for shelling an enemy belind earthworks or like defenses and out of the direct fire of field guus. Their range is nearly three times as great as the Cohorn smooth-bore mortars, the projectile is more than twice as heavy and great accuracy of fire is obtainable. The weight of the piece is about 5:5 pounds, so that it can be easily trans orted in a wagon or moved about in the trenches.

The armor piercing projectiles are to be manufactured by a domestic concern, but upon specifications that will seenre the use of some one of the modern European patented processes. For their procurement an appropriation of \$100,-000 will be available. The work of construction at Watervle't, for which advertisements ha e so far been preparedwill, it is estimated, cost about \$75,000, leaving \$73,742 of the total appropria, tion for use in completing the new south

State Troops Recalled from the Coke Works.

NON-STRIKERS FRIGHTENED.

Several Men Who, Had Heen at Work Qult and Others Likely to Follow-Ap Liffort Will Be Mude to Start All the Coke Works Next Monday-Other Labor

MCUNT PLEASANT, Fa., April 11.-The Eighteenth regiment. National Guards of Jennsylvania, will return to their home in Pattsourg at noon to-day. The Tenth regiment will remain and guar ! the coke works in the region. The report of the withdrawal of the troops has frightened the men now working and it is believed that by this evening half of the number now at work will have forsaken their places. The e were seventy men working at Morewood yesterday, three less than the previous day.

General Ananger Breunan, of the Mc-clure company, stated yesterday even-ing that a general attemt to start a l of the works in this vicinity would be made Mondac. It the attempt to start the works proves a failure, it is ver, likely that wholesale evections will take place and all tre occupants of the com-pany houses will be turned out. t is pected that the present occupants of the houses will offer resistance but the presence f the militia, it is hoped, will

prevent any enthreaks.

The sixty-seven delegat s to the strikers' special convention yesterday reported that the disposition of the men whom they represented was to hold out until Christmas, if necessary, in order to gain their end. The contention was not altogether harmonions, some of the delegates denouncing the management of the strike, declaring the management a failure and fought to endorse the

scale committee.

District Master Workman Wise reported that he had promises of penty of financial aid. President had stated that his idea was to continue the fight until the strike on the eight-har movement commences on May i, and was confident of success if the men held ont confident of success if the men held ont four weeks louger. He admitted that many of the demands in the scale were wrong and ought to be dropped.

Twenly delegates said they must have help immediately in order to keep the

men out.

Finally a resolution passed stating that the men, through their representatives, were willing to go into conference with the operators and another that the men will stand firm until their representatives shall effect a satisfactory settlement.

Deputy Sheriffs Arrested.

PITTSBURG, April 11.—A Scottdale special says: All the deputy sheriffs implicated in the Morewood shooting have been arrested. The prisoners were kept under guard in the Eighteenth regiment quarters Thursday night and were taken to Greensburg yesterday morning. An angry crowd of several hundred strike s congregated at the depot yesterday morning to see the prisoners take their departnre, and the deputies felt more comfortable when the

After a brief hearing the jndge admitted defendants to bail, placing the amount at \$3,000 each. The required bondsmen were on hand, and the min were set at liberty. The same defendants are also resting under a charge of felonious shooting preferred by labor

Preparing for the Strike.

Pittsburg, April 11.—The western Pennsylvania and Ohio coal operators are making preparations for the strike of miners on May 1. The Penusylvania operators have appointed a committee of five, with Francis L. Robbins, president of the Pittsburg, Fairport and Northwestern Dock company, as chairman. The Ohio operators have also appointed a committee of five, with Col. J. L. Morton as chairman.

Operators said last night: "There is enough coal in stock in the eastern, middle and northwestern states to supply all demands until July 1. The market has been slack right along, and the stock of coal is unusually heavy. The operators of Illinois, Indiana. Kentuck, Kansas and West Virginia will join the Pennsylvania and Ohio operators in fighting the strike. It will be fought jointly, not individually."

Rald of Strikers.

GREENSBURG, Pa., April 11.—At Whitney's works, near Latrobe, at 4 o'clock yesterday afternoon, 200 strikers accompanied by their wives and children made a raid on the forty-five men at work. The women and children led the raid. The clerks and office employes came out of the offices with Winchesters iu their hands drove the raiders away. No one was hurt. An armed force of deputies was placed at the works and work proceeded with, the workingmen under guard.

Corpenters to Strike.

PITTSBURG, April 11.—It has been definitely determined that on May 1 the 5,000 carpenters in the Pittsburg district of the Brotherhood of Carpenters and Joiners' of North America, will cease work until the builders concede the eight-hour demand. Several conferences have been held with the builders, but all efforts to reach an agreeable understanding were in vain.

A NOTABLE AMUSEMENT EVENT.

Solomon, His Temple, and the Queen of Sheba.

John Robinson's ever popular shows come to as this year with such important accessions and augmentations as to overshadow all cotemporary amusement ventures. They have not only materially strengthened their ring and hippodrome performances and added largely to their already vast menagerie, but are producing an astounding new feature, which can not but commend itself to all classes of patrons. We allude to the grand biblical spectacle of "Solomon, his Temple, and the Queen of Sheba." Faithful in scenic delineations, realistic in depiction of incidents and events, impressively grand in chariot races, this imprecedentedly sublime spectacle will commend itself to every visitor.

As a contrast to this notably artistic production, and for the especial edification and delight of the younger members of the audience, the mirth-provoking and ever acceptable pantomime of "Humpty Dumpty, his Fortunes, Misfortunes and Mishaps," will find place in the programme of the Robinson show, and will be presented by an unexceptionable company of especially engaged skilled and comic pantomimists, and replete with new, original and highly diverting tricks, transformations and surprises.

Continuation of "The Hen."

Woman, spare that hen, Touch not a single feather, You'd cook her flesh, eat It up, Then sell her skin for leather.

Our admiration for the hen constrains us to a continuation of her. She is a prolific subject; she grows upon us. In fact from the moment of her egg-citing debut into chirping chickenhood she grows up-

on us. She spreads. All this gush about the 'spread eagle" is twaddle. The old baldheaded kidnapper is not a circumstance pageantic effects, magnificent in costumes to her. When it comes to straight, oldand appointments, entrancing in musical fashioned, all-round spreading, she can features, and exciting in games and come just about as near doing as much of it as a horse blanket as any of 'em. Don't you remember the boy who put a hundred eggs under the hen? When his mother asked him why he did it, he replied that he wanted to see her "spread herself." She spreads "from the earth all 'round to the sea:" she is from ocean to ocean. She roosts on the international clothes line that the Canada women and ours hang out their washings on. She takes her ducklets surf bathing in the gulf of Mexico.

She abounds in traits and qualities that appeal to the admiration of all lovers of the beautiful and the good. In repose she is gentle of manner and amiable of disposition in a degree that should be the envy of her human sisters, in whom these graces are what perfume is to the flower, and which makes them, indeed, "rarest, fairest flowers." Under just provocation, however, she is as brave as a Spartan. In fact, to see her with wings akimbo, feathers awry, with head down, and under full, mad charge, she is hedge-hog, porcupine, bombshell and buzz saw in one volume. She is patriotic. She will die in defense of her fireside, against man, beast or hawk, who is first cousin to the "proud bird of America."

But her "onery" husband is a whitelivered coward, unless he is a thoroughbred and is challenged by some other blue-blood, and is armed with forty-fourcalibre Smith & Wesson gaffles, and a duel is arranged, with backers, in a pit of

The hen is a moral bird, as she evidences when the preacher comes. When she hears him click the latch of the front gate, she clucks the call for the family to assemble. A moment is spent in silence and then they wing up a tree where they remain in reverential silence until he is seen going to the next neighbor's.

We nominate her to be the Nation bird on our great American trade mark, in place of the eagle, who is a barren ideality. The hen is emblematic of all sentiment that is true and noble. She stands for morality, inclustry, patriotism, courage and honor.

Put her on the National shield, standing above a nest, which shall have represented in it as many, eggs as there are States in the Union, with the name of a State on each egg, and standing upon the edge of the nest thirteen little chicks rep-

resentative of the original colonies. We hereby eall a convention of all the people of the Union to be held at the foot of Bunker Hill on the 4th day of July next to confirm this nomination. Uncle Sam will preside, and the formal presentation of her name will be made by Miss Hail Columbia. The nomination will then be made by acclamation and confirmed by the deposit of one egg in Uncle Sam's hat by Miss Hail. Miss Dorking, who will be there as lay delegate, will cackle acknowledgement on behalf of all hendom in clear ben tongue. It will then only remain for the public functionaries to make the official change, when a new

era of prosperity will begin. Can any one deny that there is a Imppy hereafter for hens where-

On fame's eternal roosting ground, Folded in silence every wing -No hungry leawks will hover around,

Nor angry cooks their heads will wring? The Con. Con. will be memorialized for the enactment of a provision making it a high misdemeanor to sell a hen-skin to a tanner. This is out of respect to the hen, and to prevent the manufacture and sale of hen-skin footwear, as well as imposition upon the people.

In the highest grade of kip, calf, kangaroo, kid, cordovan, goat and all true leathers, we are showing the finest lines, varieties and styles ever seen in this market, with qualities guaranteed, at a saving of 25 per cent. Come and see our unequaled spring showing. H. C. Barkley's Spot Cush Shoe Store.

A HANDSOME IMPROVEMENT.

What Has Been Done at the Public Library-The Reception Last Night.

If Maysville people wish to see the handsomest improvement made in this city of late years—considering the amount of money expended-let them visit the Public Library.

When the building was completed some years ago and thrown open to the public, no arrangement was made to care for it and keep it clean. Most any one can imagine what naturally followed. The dust accumulated and the rooms beenme more dingy and gloomy looking year after year.

Such was the condition of affairs when some of Maysville's public-spirited women, among them Mrs. Geo. T. Hnnter, Miss Anna Morgan, Mrs. Walter Blatterman, Mrs. John M. Hunt, Mrs. Stanley Lee and Mrs. C. M. Phister, interested themselves. They planned and carried ont the merchants' carnival in order to secure an improvement fund. The entertainment was a grand success, financially and otherwise, and with the money thus obtained the ladies began their work.

The room was given a general overhanling. The walls and ceiling were handsomely frescoed, the lower part of the walls being given a plastico trimming, the upper floor and the stair-way were covered with a neat carpet, six or eight large new book cases and several office tables were put in, the paintings were brightened up and re-hung, and arrangements perfected for thoroughly lighting the room with gas.

To fully appreciate the wonderful change, one has to visit the Library. And all this was done with about \$450. It is now a credit to the city, and it is to be hoped this commencement will lead to improvements and additions on a much larger scale, and that the good work will continue until Maysville has the finest public library in the State. Its endowment fund is the largest possessed by any public library in the State, a fact that few people are aware of.

The entrance to the library is to be improved at once.

The reception last night from 8 to 10 o'clock was a very enjoyable event indeed. The room was brilliantly lighted, and the many who attended expressed surprise at the very great change. Words of praise were heard on every hand. The Maysville Orchestra kindly volunteered their services and rendered some of their sweetest music.

A painting of "The Angelus" by Mrs. Services in First Presbyterian Church Jennie Clark, and loaned by her for the

They who act without sufficient thought, will often fall into evil ways.

The truth of this maxim is seen in the following:

A certain gentleman of Maysville, who was in the habit of buying Miner's Shoes, noticed a "nice looking" shoe in a cer-

Astonished at such a lew price, he bought the shoes, supposing he had obtained a great bargain. Soon afterwards discovering that the shoes began to spread and wear badly, he exclaimed, "I deserve all this Colonel Frank Owens, of Maysville, for my folly in thinking that passed through here Wednesday morn- everything 'nice looking' must necessarily be good."

Ever had that experience? Good shoes never wear poorly; poor shoes never wear good.

The difference between good and bad is just the same as the source and mouth of a riverthough closely allied, they can never become one and the same, as they denote the extremes.

Chamberlain's Cough Remedy the Best of All.

LATROBE, PA., Jan. 27, 1891.

Messrs. Chamberlain & Co., Drs. Moines, Jowa, Gentlemen: You have helped me considerably with a good medicine and splendid advertising. Chamberlain's Cough Remedy is the most popular cough medicine I handle.

Mrs. Griffith, wife of Supt. of the Latrobe steel works, always has your Cough Remedy in her house. I persnaded her to try it months ago; yesterday sold her the fourth bottle.

Sanniel Osborne, a prominent contrac-tor, tells me: "John MacMillan, you can't say too much for Chamberlain's Cough Remedy. Say all you can and I will put my name to it."

^oMr. MacMillan you remember asking me to try, just to try, a bottle of Camberlain's Congli Remedy for that terrible cough which I carried for months. Well! That cough is gone. Oh! My name is Miss Weis.

Mr. Jos. Barnett, onr bank cashier, had a tickling in his throat for four or live nights: "Mac., one dose only of Chamberlain's Cough Remedy and I slept until morning.

Gentlemen, these are samples of hundreds that I know.

Think of the vast number of eough rups sold. Chamberlain's Cough Remedy excels them all. Sincerely yours, JNO. C. MACMILLAN,
